

PATIENT OF THE MONTH

July 2022

John Rumble

Our Bay City West Patient of the Month is John!

John was nominated by his physical therapist assistant, Luke, because he has wanted to get the most out of every session from day one. Also the fun conversations they had about old toys and TV shows made every appointment a delight.

Since starting therapy John has improved his overall strength and stamina to do more things around home. In the beginning John would get fatigued doing aquatic therapy and now he is out doing yard work without fatigue. John said that he is looking forward to going back to the gym to workout.

Congratulations John, Keep up the great work!
